

Udvar-Hazy School of Business

Accounting Department

225 South 700 East

St. George, UT 84770

Course #:	ACCT 2010, Section 50	Instructor:	Jeff Clark, MAcc
Course title:	Financial Accounting	Telephone:	435-229-7749 (Cell)
Credit hours:	3 undergraduate semester hours	Office:	Room 128, Udvar-Hazy
Prerequisites:	None	Email:	jeff.clark@dixie.edu
Location:	Udvar-Hazy 219	Office Hours:	Upon Request Only
Meeting time:	MW, 530 to 645	Term:	Spring 2015

COURSE DESCRIPTION:

This course is the first of two introductory accounting courses designed to help business and accounting majors understand accounting information so that they can use that information to make sound business and personal financial decisions. Accounting 2010 focuses on the basic concepts and applications of financial accounting including the complete accounting cycle for service and merchandise companies, the operating cycle (cash, inventory, and accounts receivable), financial statement analysis, and QuickBooks Accountant 2012.

COURSE OBJECTIVES, STUDENT LEARNING OUTCOMES, and ASSESSMENT ACTIVITIES:

This course is made up of three modules: 1) The Accounting-Cycle Module; 2) The Operating-Cycle Module, and 3) The QuickBooks Module.

- **The Accounting-Cycle Module.**

While studying the Accounting-Cycle module, students shall gain a clear understanding and appreciation of the critical economic role Accounting plays as the language of business, thus accomplishing the this module's major learning objective. Understanding and appreciation will take place as students:

- Create journal entries that transfer the raw economic data contained in economic events into the Accounting Information System and close temporary accounts;
- Post those journal entries into accounts, and
- Create trial balances and financial statements.

A comprehensive project-oriented test is the primary assessment tool for evaluating students' mastery of the journalization process and the creation of financial statements. Reinforcing activities are the primary assessment tools for evaluating mastery of the posting process and the creation of trial balances. A practice exam will be made available to increase the likelihood of achieving mastery.

- **The Operating-Cycle Module.**

While studying the Operating-Cycle Module, students shall gain a clear understanding and appreciation of the critical economic role that a well-managed Operating Cycle plays in the operational success and long-run survivability of a company. Understanding and appreciation will crystallize as students:

- Generate bank reconciliations;
- Create journal entries for and modify cost flow assumption of inventory transactions;
- Estimate and create journal entries for uncollectible accounts, and
- Analyze and evaluate financial statements.

A problem-oriented test and reinforcing activities are the primary assessment tools for evaluating students' mastery of bank reconciliations, journalizing and costing inventory transactions, estimating and journalizing uncollectible accounts, and financial statement analysis. A practice problem-oriented exam will be made available to increase the likelihood of achieving mastery.

- **The QuickBooks Module.**

While studying the QuickBooks Module, students shall develop marketable, accounting-oriented computer technology skills. Skills development will take place as students master these QuickBooks modules: 1) File management; 2) Vendors; 3) Customers; 4) Adjusting Entries; 5) Inventory; 6) Payroll; 7) Banking, and 8) New Company Setup. A comprehensive, computer-based, project-oriented exam and reinforcing activities are the primary assessment tools for evaluating student mastery.

COURSE REQUIREMENTS AND POLICIES:

- **Enhancing the Likelihood of Successfully Completing this Course.**

To enhance the likelihood of understanding accounting concepts and applications, (1) use the textbook as needed to supplement, clarify, and/or reinforce classroom learning activities, (2) come to all classes on time and stay for the entire class, (3) participate in classroom learning activities, (4) complete reinforcing activities in a timely fashion, and (5) begin practice exams as soon as possible and then practice until mastery is achieved.

- **Developing Teaming, Critical-Thinking Skills, and Oral Communication Skills.**

- Participating on a daily basis in the classroom learning activities will enhance your critical thinking and oral communication skills. I will evaluate your participation contributions on a daily basis and use the resulting rankings to compute your participation points. Your participation ranking depends upon how useful your contributions are to our classroom learning dynamics.
- Completing projects that reinforce classroom learning activities in teams of two will enhance your oral communication, teaming, and critical-thinking skills.

- **Developing Accounting-Oriented Technological Skills.**

A series of QuickBooks classroom learning activities and several related reinforcing activities will develop and enhance your accounting-oriented technological skills. QuickBooks Accountant 2012 is a leading small-business accounting software package.

- **Professionalism:**

- **Absenteeism.** Our student-instructor relationship is similar to an employer-employee relationship (you get paid in grades, depending on how well you complete tasks that I believe will help you learn and master Accounting). Missing a day of work is not cool because you can't complete work-related tasks. And, if persisted in, leads to unemployment. Thus, I strongly encourage you to always attend class.
- **Timeliness.** Grading late work is very disorienting to me because I am typically unable to recapture the mindset that I used when I graded timely submissions. **For that reason, I will not accept late work unless I have agreed to do so in advance of the due date, typically in connection with a compelling life emergency.**
- **Electronic Devices.** **If your interaction with an electronic device detracts from our learning environment, you can either provide class participants with sufficient Papa John's pizza and ice-cold Coca-Cola to meet their caloric intake dreams or taking a ten-percent reduction in your final grade.**
- **Orderliness.** All submitted assignments will be graded, at least in part, on accuracy, completeness, logic, difficulty, clarity, neatness, and organization.

- **Exams.**

Midterm exams are completed at the Testing Center as an individual effort. Each midterm exam has no time limit and is available in the Testing Center for seven days. The Testing Center's hours of operation are available online. The final exam will consist of a comprehensive, computer-lab QuickBooks Project.

- **Reasonable Accommodation Statement.**

Students with medical, psychological, learning or other disabilities desiring reasonable academic adjustment, accommodations, or auxiliary aids to be successful in this class will need to contact the Disability Resource Center Coordinator (Baako Wahabu) for eligibility determination. Proper documentation of impairment is required in order to receive services or accommodations. DRC is located at the ground floor of the Financial Aid Office. Visit or call 652-7516 to schedule appointment to discuss the process. DRC Coordinator determines eligibility for and authorizes the provision of services.

- **Academic Integrity.**

Scholastic dishonesty will not be tolerated and will be prosecuted to the fullest extent. You are expected to have read and understood the current issue of the student handbook (published by Student Services) regarding student responsibilities and rights, and the intellectual property policy, for information and procedures about what constitutes acceptable on-campus behavior.

- **Changes to Syllabus.**

Information contained in this syllabus, other than grading, late assignments, makeup work, and attendance policies, may be subject to change with advance notice, as deemed appropriate by the instructor. You are responsible for changes announced in your absence.

- **Dmail Notice.**

Important class and college information will be sent to your Dmail email account (e.g., your DSC bill, financial aid/scholarship notices, notification of dropped classes, reminders of important dates and events, and other information critical to your success in this class and at DSC). All DSC students are automatically assigned a Dmail account (go to www.dixie.edu and select "Dmail," for complete instructions). **You will be held responsible for information sent to your Dmail, so please check it often.**

RECOMMENDED TEXT:

Weygandt, Kimmel, Kieso. "Financial Accounting," Eighth Edition (www.wiley.com/college/weygandt).

GRADING:

- This is the grading scale that will map your performance on assessment activities to a letter grade:

92.5-100%	89.5-92.4%	86.5-89.4%	82.5-86.4%	79.5-82.4%	76.5-79.4%	72.5-76.4%	69.5-72.4%	66.5-69.4%	62.5-66.4%	59.5-62.4%	0-59.4%
A	A-	B+	B	B-	C+	C	C-	D+	D	D-	F

This scale is approximate because it imperfectly reflects my analysis of cumulative assessment performances that end up close to the demarcation line between grade increments. In such cases, I review all assessment activities to see if they were completed and performed at a reasonable level of competence. I typically give qualifying individuals the benefit of the doubt, awarding them the higher grade.

- These are the assessment activities, your completion of which accumulates points that are transformed into percentages that are summed and then mapped into grades using the previously noted grading scale:

	Participation	Reinforcing Activities	Exams	Total
Estimated	10%	20%	70%	100%

- For policies regarding incomplete or withdrawal, please refer to the current university catalog.

TENTATIVE SCHEDULE (MW; 530- 645 (Udvar-Hazy 219)):

Day	Date	Readings, Holidays, Due Dates, Test Dates	Topics, Activities (LA - Learning, RA - Reinforcing)
Module 1: The Accounting Cycle (AC) Module			
M	01-12	• Chapters 1-4, 9, 10, 12, 13 (Direct Method)	• Happy in America • Riches • Communication • Financial Statements Overview
W	01-14	• Chapters 1-4, 9, 10, 12, 13 (Direct Method)	• Financial Statements Overview • Accounting Cycle Overview
