- (12) Prepare journal entries using the Fund Basis of Accounting.
- (13) Interpret Financial Statements of State and Local Governments.

TEXT READING:

Reading the text is crucial for understanding the concepts presented in this course. You are required to read the chapters that will be discussed in class **prior** to the class discussions. These class discussions assume that you are well prepared to discuss the topic(s) of the day. You will be randomly called on in class to provide valuable input to the class discussion. **Pop quizzes may be given from time to time to assure that the reading assignments are being completed!**

LECTURES/DISCUSSIONS:

Lectures and discussions will be offered for each chapter assigned in the “Schedule & Assignments” section of the syllabus. The lectures and discussions serve to review the subject matter briefly and to bring real-time application and experience into the class. The goal is to extend the class beyond the reading and into the current profession. **Lectures will evolve into discussions and your participation is required!**

TEAM RESEARCH PAPER and PRESENTATION (See Team Work Rules):

One major research paper and presentation will be completed in teams of two. Teams will be allowed to choose, from a list provided by the professor, a specific research topic, on a first come first serve basis. Each team will be assigned a specific class period with which to formally present their subject. Additional instructions will be provided when the research topics are discussed in class. Both team members must be fully involved in both the preparation and presentation process. The formal presentation should be designed for a 30 to 35 minute appearance. All appearances must be presented to the class during the assigned class period to receive credit. In addition, a research paper will be submitted to the instructor prior to the class presentation. Format, organization, accuracy, and completeness are all considered during the grading process. **Your attendance at ALL of the presentations is required** to receive full credit in this area!

HOMEWORK ASSIGNMENTS (See Team Work Rules):

Homework assignments are an important element of understanding complex Financial Accounting concepts. As such, this class will require a significant number of homework assignments to be completed. All homework assignments will be handed in during class on the date assigned as listed on the "Schedule & Assignments" section of the syllabus. **Group work is strongly encouraged on homework and will be mandatory on several assignments.** Homework assignments are self-graded during the class review to assist in the learning process. The self-grading will be carefully reviewed to determine if all errors or omissions were noted. Additional points **WILL** be deducted for missed errors and/or omissions. **Credit is only available** if the homework assignment is **turned in before or during class** on the due date. **Late homework assignments will receive NO credit!** All homework assignments must be computer generated and **hand-written assignments will NOT be accepted.** Layout, organization and neatness are strongly considered during the grading process.

EXAMS:

Exams are scheduled during this semester. Portions of each exam will be taken in the classroom on the scheduled date. Students will not be allowed to leave anytime during the exam period. A take-home portion will also be part of the exam process. The **in-class portion** will be **closed book, closed notes and individual effort.** The **take-home portion** will be **open book, open notes BUT individual effort.** Any form of cheating may result in a Failing grade for the course. **No early or late Exams will be allowed!**

PARTICIPATION/PROFESSIONALISM/CLASS ATTENDANCE:

This is your education. Take ownership of your investment in this class by contributing in a positive manner in class discussions and lectures. Participation shows the instructor your concern for the subject matter and will directly affect your overall grade in this class. **Disruptive or disrespectful behavior will cause students to lose all participation points.** If a student does not show respect, maturity and professionalism in the classroom environment, he or she will most likely struggle in a post-academic environment. In addition, students who are tardy, inattentive, experience excessive absences, or allow their cell phones to disrupt the class will suffer in this area.

ACADEMIC INTEGRITY:

The Accounting profession is well known for a reputation of honesty, integrity, and high ethical standards. As a result, scholastic dishonesty will not be tolerated and will be prosecuted to the fullest extent. Students are expected to have read and understand the current issue of the student handbook (published by Student Services) regarding student responsibilities and rights, and the intellectual property policy, for information and procedures about what constitutes acceptable on-campus behavior (See DSC Policy Links listed below).

TEAM WORK RULES:

The primary purpose of requiring team work assignments is to develop and enhance research, writing, and presentation skills, while working in a small group environment. As a result, when group work is mandatory for assignments, these assignment requirements may NOT be split between team members. Teams may use any research source available, including the text or any other written or web resources to complete any of the assignments. Any form of plagiarism or using the work of any other team is prohibited. **Not following these rules is considered cheating and may result in a Failing grade for the course!**

GRADING:

Grading is not on a curve. Your grade will be based on the scale listed below. **There are NO grade improvement projects available in this class!**

Exams	50%	A	95.0 - 100%	C	73.0 - 76.9%
Homework Assignments	10%	A-	91.0 - 94.9%	C-	70.0 - 72.9%
